

TRISH JEDRICK

I started oil painting as a Saturday class in 10th grade.

Went on to Moore Institute of Art in Philadelphia and went into commercial art.

Left for marriage and family years and the Graphics completely took over commercial during that time. I did dental assist for a number of years and finally retired to SCHH and started fine art again.

I love to paint but have seemingly little teacher ability. I hope you like the work. I do not talk when I work!
